

## Recruitment – Senior Researcher (Regular Staff)

KIST Europe Forschungsgesellschaft mbH ([www.kist-europe.de](http://www.kist-europe.de)) is established in 1996 and located in Saarbrücken, Germany, as an overseas branch of the KIST in Seoul, Korea.

We would like to recruit creative and enthusiastic talents for **development of deep learning model in bio-chemical informatics**.

### ○ Open position: Researcher holding Ph.D degree

Research Area	Position	Major	Tasks
Deep Learning (Bio/Chem-Informatics)	Senior Researcher (Ph.D)	(1) Computer Science/ Statistics (or other related majors) (2) Bio / Chemical Engineering (or other related majors)	- Big data analysis in bio-medical domain - Generative models (image/drug discovery) - Software-based bioinformatics (Molecular docking, read-across, in silico models)

### ○ Eligibility (General)

- Holders of Ph.D degree
- (1) Computer Science / Statistics: research experiences in bioengineering fields are preferred
- (2) Bio/Chemical Engineering: research experiences in deep learning are preferred
- \* For both of (1) and (2), profound knowledge in deep learning libraries is required, and the publication in the international conference (machine learning/artificial intelligence) is preferred.
- Korean and English fluent / no disqualification of working in Germany

### ○ Conditions and types of employment

- Wages: KIST Europe Wage table (German TV-L standard), basic welfare included
- Contract period: Regular staff (permanent)

### ○ Documents (in English, PDF)

- Curriculum Vitae
- Proofs of research achievement
- 1 copy of college or university transcript/career certificate (scanned original as pdf file)

### ○ Application Period and Contacts

- Submission Deadline: ~ April 30, 2021, 23:59 (local time in Germany)
- How to apply: Online application ([info@kist-europe.de](mailto:info@kist-europe.de))
- \* Only major/task related inquiries will be answered. If you have any other questions, please ask us at the interview.
